

Contract Wall Panel Solutions

A responsible choice

- a smart waterproof system designed to suit any project.

Quickly waterproof a space with our high-quality wall panelling; built to last and easy to install. This selected range of versatile decors ensures a stylish interior for use in shower enclosures, around the bathroom and behind baths. Ideal for social housing maintenance or new build projects.

Manufactured in the UK using the latest equipment and techniques, every panel is crafted to deliver technical precision and a superior finish. From order to delivery — including best-in-class packaging, samples, and aftersales support — we ensure total satisfaction, every time.

All Showerwall laminate wall panels are made using materials that are both recyclable and responsibly sourced, using an FSC® or PEFC certified plywood core. This guarantees that we use only timber from well-managed forests and controlled sources, meeting globally recognised environmental, social, and economic standards.

Driven by quality, powered by performance, and committed to the planet — our products are built to exceed expectations and protect what matters most. We're continually reducing our environmental footprint, from using recycled materials to adopting biomass recycling. **Scan the QR code** to watch how we're making a positive difference across the business.

Packaging from 100% recycled material

Whilst images and swatches give a good indication of a decor, nothing compares to seeing how the real thing will work in your space. Order your free samples online at www.showerwall.co.uk. Other useful information is also available online; including product data sheets and installation advice.

Showerwall – Waterproof Solutions

Showerwall offers a durable, hygienic alternative to tiles — easy to install and maintain, panels reduce mould risk and cut installation time and cost by up to 50%.

100% WATERPROOF

High-pressure laminate surface on a plywood core; no grout required.

QUICK INSTALLATION

Fit directly over existing tiles to reduce labour time.

LOW MAINTENANCE

Smooth, non-porous surface that resists mould and is easy to clean.

SURESEAL TECHNOLOGY

Four-point sealing system with no resealing needed.

PROCLICK OPTION

Achieves seamless joints without the need for joining trims.

LONG-TERM RELIABILITY

30-year domestic guarantee reducing the need for future repairs.

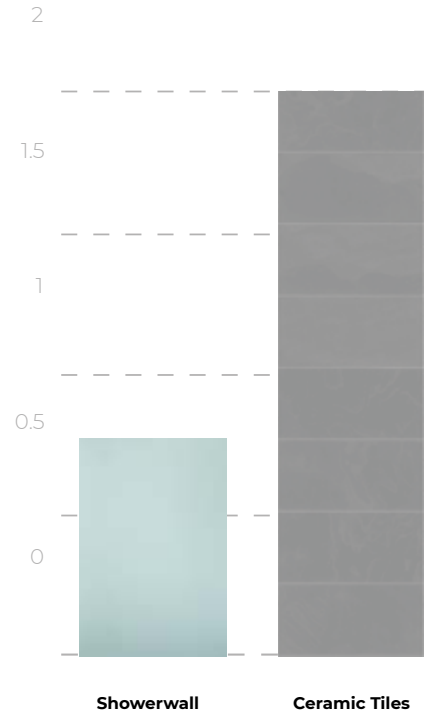

NHBC COMPLIANT

To NHBC tanking regulations, conforming to EAD 030437-00-0503 for selected products.

Social housing

We appreciate that meeting the growing demand for housing is a challenge. This is why Showerwall has been developed to ensure that renovations and upgrades are completed as quickly as possible.

UPGRADE ON A BUDGET

With the capability to fit over existing tiles, renovating a bathroom with Showerwall creates a lot less mess and allows a much faster fit than tiles to ensure your budget is spent more efficiently across multiple properties.

SAME DAY INSTALLATION

Our panels can be fitted to make a shower area completely waterproof in less than a day; reducing property downtime and the time specialist trades spend on-site.

MINIMAL MAINTENANCE

Thanks to our watertight Sureseal and trim system, Showerwall requires next to no maintenance with a simple wipe clean surface. The no grout characteristics and enclosed four point Sureseal system at the base of the panel provides a long standing mould-free solution.

SUITABLE FOR ALL

Our select range of neutral popular decors look great in both shower enclosures and above bathtubs, allowing flexibility across multiple properties. The honed range also reduces decor selection time to increase project momentum.

Sector Solutions

At Showerwall, we understand that every sector has its own unique requirements.

That's why we offer tailored wall panelling solutions designed to meet the practical, aesthetic, and performance needs of each environment — from healthcare and education to hospitality and modular construction.

INDEPENDENT LIVING & ADAPTATIONS

Showerswall provides durable, hygienic wall panelling systems ideal for accessible environments. Rapid to install and easy to maintain, our waterproof panels combine robust performance with stylish design — perfect for spaces where hygiene, practicality, and comfort are essential.

MODULAR BUILDINGS & OFFSITE

Engineered for modern methods of construction, our lightweight, fully sealed panels are quick to fit, transport-ready, and a 100% waterproof system. With Proclick and Sureseal technology, they ensure efficiency, quality, and compliance — supported by UK-based manufacturing and sustainable practices.

STUDENT ACCOMMODATION

Designed for high-usage spaces, Showerwall panels deliver long-term performance with minimal maintenance. A system that is 100% waterproof, grout-free, and wipe-clean, they're quick to install and built to last — offering durable, contemporary finishes ideal for busy student environments.

HOTELS & LEISURE

Practical, and built to perform, Showerwall panels provide a stylish alternative to tiles. A waterproof system that is grout free and easy to clean, they're perfect for hotels, gyms, and leisure spaces that demand a refined look with lasting efficiency and low upkeep.

New Build Solutions

We also appreciate the demands of the new build sector — where speed, consistency, and proven performance are essential. That's why Showerwall offers reliable wall panelling systems designed to meet the practical and regulatory needs of modern developments. Providing a complete wall panelling solution that performs the roles of waterproofing, tanking, and decorative tiling in one integrated, efficient system.

INDEPENDENTLY TESTED FOR CONFIDENCE

Selected Showerwall products have been independently tested and verified by SINTEF, one of Europe's leading research and certification bodies. The testing confirms that these products are fully compliant with European Assessment Document (EAD) 030437-00-0503, meeting the criteria for watertightness, durability, and long-term performance in wet area installations.

BUILT FOR MODERN DEVELOPMENTS

Showerswall's system offers a fast, clean, and efficient alternative to traditional tiling, making it ideal for large-scale residential and new build projects where speed and consistency are key. The precision-engineered panel system allows for quick installation, reducing on-site labour time and minimising delays across multiple plots — without compromising quality or finish.

NHBC COMPLIANCE

As verified through SINTEF testing, the compliant Showerwall products are suitable for use as a tanking solution, in line with the 2025 update to NHBC standards, which governs internal wet area construction. This means specifiers and developers can confidently select these products knowing they align with current and future building performance requirements.

Cement Tile

CONTRACT LAMINATE SOLUTIONS

The Laminate range offers a simple and durable wall solution designed to look like natural materials, including Tile specific designs complete with a realistic built-in grout line. Available in two profiles — Square Edge and Proclick — when installed with trims and Sureseal, this range provides a reliable, long-lasting solution for high-use settings.

COST-EFFECTIVE

NO GROUT REQUIRED

FAST AND EASY INSTALLTION

HYGIENIC AND EASY TO CLEAN

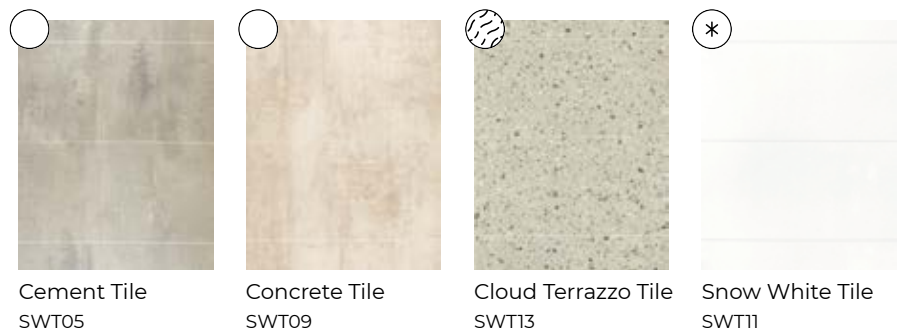

30 YEAR GUARANTEE

Note: All Laminate panels are supplied on a plywood core as standard.

LAMINATE DECORS

LAMINATE TILE DECORS NHBC tanking regulations compliant, conforming to EAD 030437-00-0503.

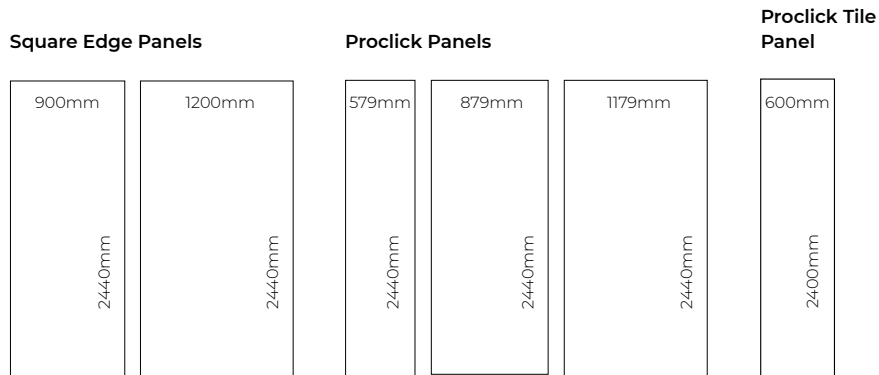

LAMINATE PANEL DETAILS

Laminate panels are manufactured using an FSC® or PEFC certified plywood core which is bonded to high pressure laminate.

To ensure a watertight finish, Laminate panels require trims (including Sureseal) for all outer edges, and internal and external corners, available in a choice of White Gloss or Satin Silver finish.

Choose from Square Edge or Proclick panels. Please note that Tile panels are only available as 600mm Proclick.

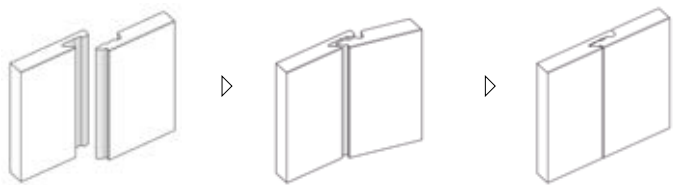

All laminate panels are 10.5mm in thickness, apart from Tile panels that measure 10.2mm thick.

PROCLICK TECHNOLOGY

Proclick technology has been engineered to create a mechanical locking system that provides seamless, almost invisible joints. Proclick panels are available in a number of sizes for maximum flexibility.

Installation is made easy through the click design which allows panels to be located quickly and easily into place, eliminating the use of joining trims.

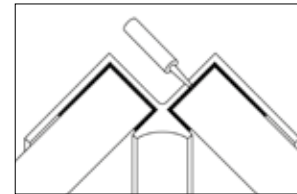

Due to a slight difference in thickness, Proclick Panels are not compatible with Proclick Tile Panels when being installed side by side.

WATERPROOF SYSTEM

Our two-part system ensures a 100% watertight seal and comes in two colours to coordinate with any decor. Easy to install and maintain.

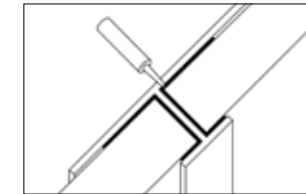

TRIMS

To ensure a 100% watertight finish, trims must be used on all outer edges and corners of all Laminate panels.

Internal corner

Used on all internal 90° corners

Joining trim

- 05 Proclick Panel x2

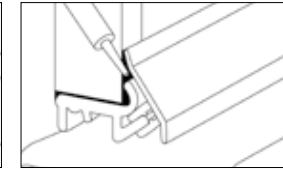

SURESEAL

At the base of the Showerwall panel, even greater sealing performance is achieved using Sureseal. Fit and forget using the only maintenance-free shower seal on the market with no future resealing required. This four point sealing system is quick and easy to install, leaving the entire base of the panel encapsulated in sealant without any unsightly lines. Sureseal measures 2450mm long.

Sureseal front capping is available in two colours:

SEALANT & ADHESIVE

We recommend that Showerwall's own brand of adhesive and sealants are used for the effective fitting of Laminate product. Our Showerwall guarantee only applies if the correct products are used when fitting Showerwall panels.

Our sealant and adhesive have been thoroughly tested with our products. The sealant is fast-curing, low modulus, and easy to smooth, while the adhesive is an MS polymer with high bond strength.

CONTRACT COMPACT SOLUTIONS

Made from a durable solid composite material, Compact panels feature an embossed tile-effect surface that delivers the timeless look of Subway tiles — without the need for grout. Competitively priced and designed for efficiency, these panels offer a quicker installation than traditional tiling and are exceptionally easy to clean and maintain.

COMPACT PANEL DETAILS

These 3mm solid composite panels are manufactured with a square-edge profile and embossed to achieve a realistic tile-effect surface. Designed for use within a waterproof system, they provide a practical alternative to traditional tiles, offering straight forward handling and precise installation. The dense, non-porous material resists moisture and staining, ensuring a durable finish that remains easy to clean and maintain over time.

Note: Compact panels are 3mm in thickness.

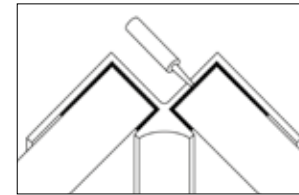

Lily White

WATERPROOF SYSTEM

Our Compact product comes with a system of trims which ensure a 100% watertight seal; available in two colours. Easy to install and maintain.

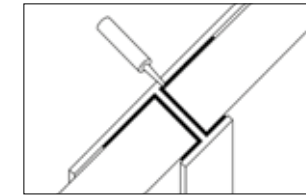

TRIMS

In order to ensure a watertight finish, trims are required for the joins and outer edges of compact panels, as well as both internal and external corners.

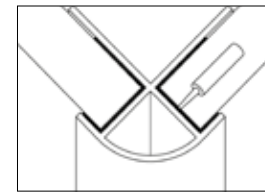

Internal corner

Used on all internal 90° corners

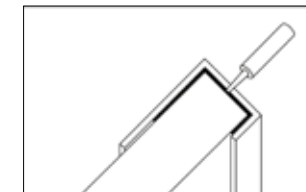

Joining trim

Used to mount panels side by side

External corner

Used on all external 90° corners

End Trims

Finishing end trims for panels

Two available trim colours;

Satin Silver

White

SEALANT & ADHESIVE

We recommend that Showerwall's own brand of adhesive and sealants are used for the effective fitting of Compact product. Our Showerwall guarantee only applies if the correct products are used when fitting Showerwall panels.

INSTALLATION

Full installation instructions are provided with every panel and we highly recommend visiting www.showerwall.co.uk where installation guides and videos can be found, or you can scan QR codes below.

Failure to comply with the Showerwall installation instructions, including the recommended use of Showerwall sealant, adhesive, trims, and Sureseal, where required, will invalidate your guarantee.

Installation Guide

CARE AND MAINTENANCE

Showerwall is more hygienic and easier to maintain than tiles. The nonporous surface provides excellent protection against bacteria, especially in the areas between tiles that are traditionally grouted.

Showerwall anti-bacterial cleaner kills germs and keeps hard surfaces clean without scratching and is recommended for the optimum life and performance of your Showerwall panel. Abrasive cleaners and bleaches must not be used on Showerwall panelling. Sealant needs to be replaced at regular intervals - failure to do so may cause water ingress and subsequent panel damage.

DISCLAIMER: Any reference to Showerwall waterproof panelling system refers to all elements of the Showerwall system being fitted together. Showerwall panels must be fitted in accordance with the fitting instructions and must use Showerwall trims, including Sureseal, sealant and adhesives, to ensure the system is both waterproof and guaranteed. Due to variations in the photographic and printing processes the colours shown may vary compared to the actual product. Natural stone decors will vary to replicate variances in this type of material, and there will generally be shade variances between individual panels which is not grounds for complaint. All panels, irrelevant of decor type, must be inspected carefully before installation. Any concerns raised must be clarified prior to installation. It is recommended that actual product samples are viewed prior to purchase.

We reserve the right to amend the specification of the products shown without prior notice. E&OE

A smart waterproof system combined; built to last and easy to install.

GUARANTEE

When installed correctly using the recommended fitting guide and accessories, Showerwall is guaranteed to be free from defects for 30 years, from the date of purchase. A copy of the Showerwall guarantee is available to download from www.showerwall.co.uk.

Note our Showerwall System carries a 30-year guarantee that is limited to domestic use against manufacturing defects, failure to comply with the Showerwall installation instructions, including the recommended use of Showerwall sealant, adhesive, trims, and Sureseal, will invalidate your guarantee.

ENVIRONMENTAL RESPONSIBILITY

All Showerwall laminate wall panels are made using materials that are both recyclable and responsibly sourced, with an FSC® or PEFC certified core. This guarantees that we use only timber from well-managed forests and controlled sources, meeting globally recognised environmental, social, and economic standards.

Driven by quality, powered by performance, and committed to the planet — our products are built to exceed expectations and protect what matters most. We're continually reducing our environmental footprint, from using recycled materials to adopting biomass recycling. **Scan the QR code** to watch how we're making a positive difference across the business.
