

The stylish alternative to tiles

Showerwall is ideal for use in shower enclosures, around and behind baths, or to create impressive feature walls.

Our versatile easy to install wall panelling delivers a watertight hygienic surface, which is hard wearing, low maintenance and built to last. Panels are available in a range of materials, made in Britain, and backed by a guarantee of 30 years.

Discover the **best wall panel range on the market.**

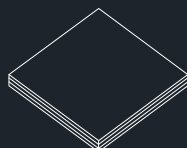

Acrylic

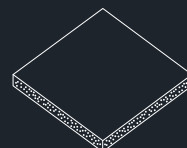

Hydrocore

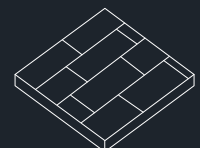

Plywood

Exterior-Grade MDF

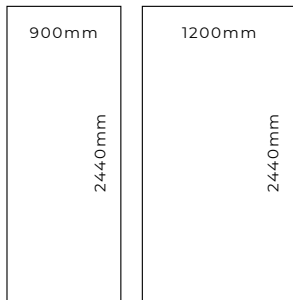

Compact

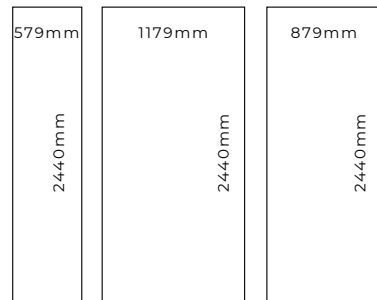

Laminate panels are available in a range of coreboards, with Hydrocore, our 100% waterproof core, for the Majestic Collection and for the Original and Impression Collections you can choose between Plywood or Exterior-Grade MDF. The Arcade and Tile collection exclusively available on a dedicated Plywood Proclick panel - all in stock with no MOQ. Our decors come in a range of different finishes; from gloss to authentic textures.

Square Cut Panels

Proclick Panels

Proclick Arcade & Tile Panels
(Exclusively Plywood)

Laminate panels are 10.5mm thick, and Arcade and Tile panels measure 10.2mm thick.

Proclick technology has been engineered to create a mechanical locking system that provides seamless, almost invisible joints. Installation is made easy through the click design which allows panels to be located quickly and easily into place, eliminating the use of joining trims.

A Waterproof System

To ensure a watertight finish, trims must be used on outer edges and corners with panels from the Original, Impression, Arcade and Tile Collections - available in a range of colours to match any décor.

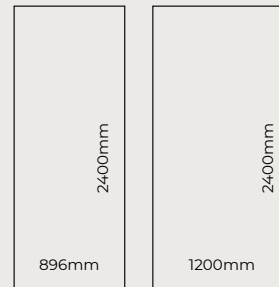

Integrated Niches

Add a sleek, functional feature to your bathroom with our built-in shower niches. Designed to complement our full range of wall panels, available in two sizes and three stylish finishes; brushed stainless, brushed brass and matt black.

Our **Acrylic panels** are 4mm thick and rear printed to create a polished glass-like finish that brings digital imagery to life. They are 100% waterproof and do not require any trims.

Acrylic Panels

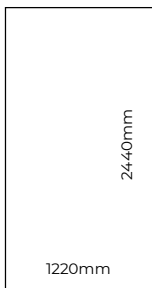

Pattern Matched

Acrylic pattern-matched panels ensure seamless design continuity across panels and around corners.

Customisation

Acrylic panels are completely customisable and can be printed in any colour or image, creating something truly unique.

Compact Panels

Our **Compact Panels** are made from a strong solid composite material, embossed to create a subway tile effect wall without the need for grout. These 3mm square edge panels are easy to fit through a waterproof system, reducing the fitting time compared with traditional tile products - and they are even easier to keep clean.

To ensure a watertight finish, Compact panels require trims for all joins and outer edges, as well as internal and external corners.
