Acrylic

Hydrocore

Plywood

Exterior-Grade MDF

Compact

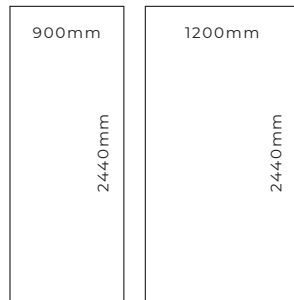

**Laminate panels** are available in a range of coreboards and panel sizes.

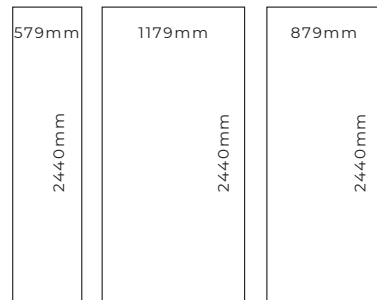

The Majestic Collection features Hydrocore, our 100% waterproof core, while the Original and Impression Collections are available in either Plywood or Exterior-Grade MDF. The Arcade and Tile Collections are exclusively available on a dedicated Plywood Proclick panel size. Laminate decors are offered in a variety of finishes, from gloss to authentic textures.

**Square Edge Panels**

**Proclick Panels**

**Proclick Arcade & Tile Panels**  
(Exclusively Plywood)

Laminate panels are 10.5mm thick, and Arcade and Tile panels measure 10.2mm thick.

**Proclick technology** has been engineered to create a mechanical locking system that provides seamless, almost invisible joints. Installation is made easy through the click design which allows panels to be located quickly and easily into place, eliminating the use of joining trims.

**A Waterproof System**

To ensure a watertight finish, trims must be used on all outer edges and corners of panels from the Original, Impression, Arcade and Tile Collections - available in a range of colours to coordinate with any décor.

**Integrated Niches**

Add a sleek, functional feature to your bathroom with our built-in shower niches. Designed to complement our full range of wall panels, available in two sizes, two depths and four stylish finishes; brushed stainless, brushed brass, matt black and new chrome.

Our **Acrylic panels** are 4mm thick and rear printed to create a glass-like finish that brings digital imagery to life. With a high-gloss finish that amplifies colour and detail, and our **new muted matt finish** designed for a softer, more contemporary effect. Each 100% waterproof panel is supplied with an installation kit as standard, including everything a qualified installer needs to achieve a flawless, professional finish.

**Acrylic Panels**

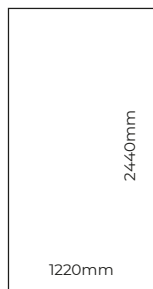

**Pattern Matched**

Acrylic pattern-matched panels ensure seamless design continuity across panels and around corners.

**Bespoke Panels**

Acrylic panels are completely customisable and can be printed in any colour or image, in either gloss or matt. Simply select a colour or supply an image of your choice and we'll create your bespoke shower panel.

**Compact Panels**

Our **Compact Panels** are made from a strong solid composite material, embossed to create a subway tile effect wall without the need for grout. These 3mm square edge panels are easy to fit through a waterproof system, reducing the fitting time compared with traditional tile products - and they are even easier to keep clean.

To ensure a watertight finish, Compact panels require trims for all joins and outer edges, as well as internal and external corners.
